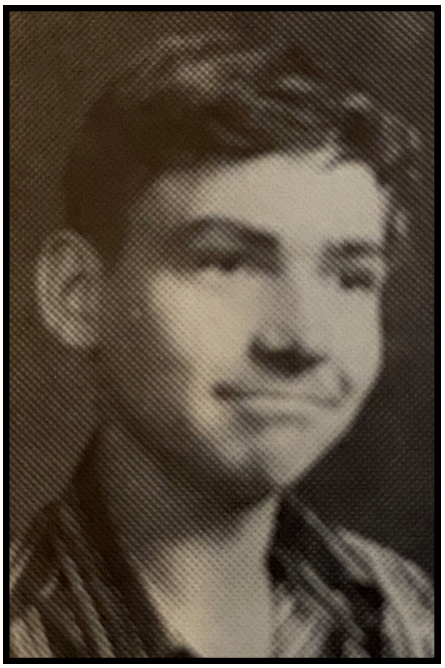
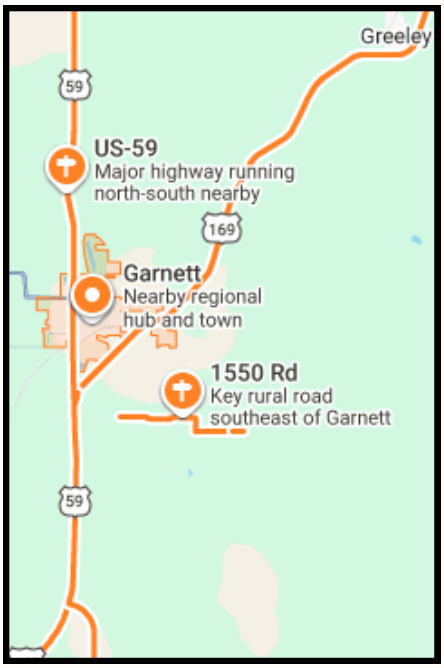
UNSOLVED HOMICIDE CASE

11/20/2026

JIMMY DOLLISON





Date of Incident: 4/18/1973
Age When Died: 16 years
City: SE of Garnett, Kansas
Last wearing: Corduroy jacket, green shirt, black belt with buckle, hiking boots, navy stocking cap, gold rings with crosses, ring with “78”, silver chain with cross

On April 18, 1973, the decomposing remains of an unidentified male were located three miles SE of Garnett. During autopsy in 1973, the coroner ruled the man’s manner of death a homicide due to signs of trauma. In 2024, DNA was extracted from the remains and a DNA profile was used for forensic genetic genealogy testing. In 2025, the KBI positively identified the man as Jimmy Allen Dollison. Jimmy had been living in Kansas City, Kansas when he went missing. He disappeared sometime in October or November of 1972.
